26 June 2023

Early morning walking safaris are a fantastic way to get close to nature and learn more about the smaller species and the bush itself. It's an unforgettable experience to walk within such a vast and untamed area of natural reserve; walking safaris are tailored to give you the opportunity to learn about the things you miss from the vehicle or boat. Learn to identify animal tracks and signs and hear fascinating information about the insects, trees and colorful birdlife. Walks are slow-paced, accompanied by both an armed ranger and nature expert guide and are around 2-3 hours long. Children must be able to walk unassisted and the camp management, guide or ranger accompanying the walking safari has the right to stop a child from participating if they feel it is in the best interests of the safety of the individual or group. After walking safari, enjoy your breakfast and then drive back to Dar Es Salaam for drop off
